September Split is a Norwegian based artist-run organization and collective that was founded in september 2011 to help and challenge selected artists to travel and exhibit abroad. Our main focus is on Scandinavian contemporary art. Our core objectives are to help create and launch art, to promote, support and facilitate for the activities of our artists.

There are currently seven artists held under the patronage of September Split. Besides representation and sponsorship we also run an international program to support our artists in their production of new work, exhibitions and projects.

The September Split artist is working in a cross-disciplinary, cooperative structure that recognizes that art transcends the boundaries of specific mediums. Working from the idea that the curator's role should be and is posed as a conceit or statement or question alongside that of the artist, and that this process should not be stopped through excess projection around the historical construction of the idea of what an artist may or may not represent.

Participation in the program is by invitation only.

Please note that September Split does not accept submissions from artists and that material will not be returned to sender.

Thank you for your understanding.
